

E-ELEMENTS OF SUCCESS

When looking for shoes, always take your Sole Supports with you. Shoes/Sandals with removable inserts are best to accommodate a full orthotic. Your smaller dress orthotic will fit in many shoes without removable inserts, but try them on first. They will need a deep enough heel cup so you don't walk out the back, sturdy construction so your orthotic has a support near the arch.

Sandals with Removable Inserts

- Best to use with full foot length, Black Ultrasuede over 1/8 black EVA, black plastic shell, standard width, shallow or medium heel cup.
